BY TOUR EDGE

## EXOTICS

### EX-OT-IC

*adj.*

1. Striking, fascinating
2. Excitingly or mysteriously different or unusual

*n.*

3. Metals that are more costly to manufacture and process due to high temperatures required for heating and shaping of parts
4. An advanced line of high-performance, tour-preferred golf clubs from Tour Edge

## POUND FOR POUND, NOTHING ELSE COMES CLOSE.

It's been over 12 years since the first Exotics by Tour Edge product was launched to the golfing masses. Immediately, Exotics established itself as a new leader in high-quality craftsmanship with clubs that redefined what was possible in golf club performance.

To utilize new higher-grade, avant-garde materials and manufacturing methods and techniques is the Exotics ethos that has led us to a material advantage over other clubs on the market. It's the very DNA of all Exotics products and it is why year after year we are able to produce award-winning products that defy all expectations.

With the new Exotics EXS, we've loaded each product from driver to iron with a plethora of the latest performance innovations in golf club design.

If you demand the best of the best in technology and performance, look no further than the new ultra-premium line of Exotics EXS by Tour Edge.

EXS

**EXS** DRIVER

The EXS driver brings together absolute beauty with every technology available in modern driver design.

**DAVID GLOD**  
PRESIDENT, FOUNDER & MASTER CLUB DESIGNER

# EXS DRIVER

**CARBON FIBER TOE**  
allows weight to be repositioned lower and toward the rear of the head for an extremely high MOI

**SLIPSTREAM™ SOLE**  
with wider speed channels to create faster clubhead speed

**MULTI-MATERIAL CONSTRUCTION**  
utilizes exotic metals; Japanese TSP 910 Beta Ti face plate and 8-1-1 Titanium chassis

**DUAL CARBON TECHNOLOGY**  
carbon fiber crown and toe provide extreme weight savings that is redistributed back and low in the head to maximize MOI

**VARIABLE FACE THICKNESS**  
featuring thin and thick compartments strategically positioned to provide optimal forgiveness even on off-center hits

**FTS™ (FLIGHT TUNING SYSTEM)**  
allows adjustable sole weights to be moved to two alternate FTS settings

- FTS1 Setting: 9-gram weight in the heel, 3-gram weight in the rear for lower spin, slice reducing shape, medium launch
- FTS2 Setting: 3-gram weight in the heel and a 9-gram weight in the rear for medium spin, neutral shape, higher launch

**SUPERIOR ADJUSTABILITY**  
allows for +/- 2 degrees of loft in addition to 3 upright lie angle settings with adjustable hosel

**FTS SOLE WEIGHTS**  
can be interchanged to dial in launch angle and ball flight

**ROLLFACE TECHNOLOGY**  
incorporates modified bulge and roll on the toe to create straighter shots

9.5 EXS	HOSEL SETTING	ADJUSTED LOFT	LIE	LENGTH

## ULTRA-PREMIUM TENSEI™ CK BLUE SHAFT

The new TENSEI CK Blue 2G series by Mitsubishi Chemical features a multi-material design that optimizes classic, tour-proven bend profiles. The extremely light, yet extremely stable shaft integrates more advanced materials than Mitsubishi has ever combined before into a single shaft series.

## STANDARD SHAFTS

- MCA Tensei CK Blue 2G 50 (L,A,R)
- MCA Tensei CK Blue 2G 60 (R,S,X)
- MCA Tensei CK Blue 2G 70 (S,X)

## GRIP: Lamkin Exotics UTx

Available in mens and women's right hand. Lengths listed are men's standard. Ladies standard lengths are -1".

EXS Driver Alternate Weight Kit available separately with 6 gram, 11 gram and 14 gram weights

EXOS

FAIRWAY WOOD

The original Exotics fairway redefined the category in 2006 by flying 20 yards past our competitors; we continue this standard of excellence to this day.

## FAIRWAY WOOD

**CARBON FIBER TOE**  
allows weight to be repositioned lower and toward the rear of the head for an extremely high MOI

**SLIPSTREAM™ SOLE**  
with wider speed channels to create faster clubhead speed

**FORWARD CG POSITION**  
center of gravity is positioned closer to the face for less spin

**U.S. CARPENTER HYPER-STRENGTH STEEL CUP FACE**  
quench hardened high density steel made thinner yet stronger with special heating technique

**FTS™ (FLIGHT TUNING SYSTEM)**  
allows adjustable sole weights to be moved to two alternate FTS settings

- FTS1 Setting: 11-gram weight in the heel, 3-gram weight in the rear for lower spin, slice reducing shape, medium launch
- FTS2 Setting: 3-gram weight in the heel and a 11-gram weight in the rear for medium spin, neutral shape, higher launch

**FTS SOLE WEIGHTS**  
can be interchanged to dial in launch angle and ball flight

**VARIABLE FACE THICKNESS**  
featuring thin and thick compartments strategically positioned to provide optimal forgiveness even on off-center hits

EXS

HYBRID

The feeling I get when I see the best players in the world using my clubs is indescribable. When a player chooses one of my designs, it's the ultimate validation of what we set out to achieve.

**DAVID GLOD**

PRESIDENT, FOUNDER & MASTER CLUB DESIGNER

# EXS HYBRID

**SLIPSTREAM™ SOLE**  
with wider speed channels create an even faster clubhead speed by minimizing turf interaction

**HT 980 HYPER-STRENGTH STEEL CUP FACE**  
quench-hardened high density steel made thinner yet stronger with special heating technique

**HIGH-FLYING, EASY LAUNCH**  
design for maximum forgiveness and playability

**FTS™ (FLIGHT TUNING SYSTEM)**  
adjustable sole weight brings the CG back and can be adjusted to change swing weight and launch characteristics.

**FORWARD CG POSITION**  
center of gravity is positioned closer to the face for less spin

**VARIABLE FACE THICKNESS**  
featuring thin and thick compartments strategically positioned to provide optimal forgiveness even on off-center hits

## GRIP: Lamkin Exotics UTx

Available in men's and women's right hand. Lengths listed are men's standard. Ladies standard lengths are -1"

EXS Hybrid Alternate Weight Kit available separately with 7gram and 10 gram weights

It's just flat out long. I mean, it's silly long. When I started designing 30 years ago, I never imagined technology would enable us to do this with an iron.

**DAVID GLOD**  
PRESIDENT, FOUNDER & MASTER CLUB DESIGNER

# EXS IRONS

**TUNGSTEN TOE WEIGHT**  
 elongates the sweet spot  
 for maximum forgiveness

**RAMPED SOLE**  
 offers more relief on the heel and  
 toe for smoother turf interaction

**THIN TOP LINE**  
 provides versatility and  
 shot-shaping control

**EXTREME TOE WEIGHTING**  
 elongates the sweet spot with a  
 19-gram Tungsten weight

**LAUNCHPAD TECHNOLOGY**  
 TPE polymer coated with a special  
 performance gel that absorbs shock  
 and creates more spring effect

**FORGED CUP FACE**  
 is extremely thin and light,  
 yet exceptionally strong

**SPIDERWEB VFT TECHNOLOGY**  
 in the form of a web across the face  
 produces an expanded sweet spot

**HOLLOW BODY CAVITY**  
 provides the best of the best in  
 perimeter weighting and increases  
 face flex
